Final Word

The Xcell rising stars, an event not to be missed, so I am therefore gutted that I could not be there on the evening.

I think it would be fair to say, that the majority if not all of the sires and dams of the entries here are a direct result of you utilising, semen collection, AI and ET. I would therefore encourage you all to continue utilising these techniques, and of course encourage you to support those in the industry who sponsor and support events such as this. As with this we can all continue to sponsor and support the Rising Stars.

I hope that you enjoyed the evening and I wish you well with this breeding season.

See you out there.

Cheers
